Earn a transfer degree in Watseka!

**Now exclusively offered at the Miner South Extension Center in Watseka.
We took away the guesswork so you can focus on being successful.**

After 2 years and 60 credits in Fast Path, you'll complete an Associate in Arts transfer degree. This degree is accepted (and guaranteed!) at 24 Illinois colleges, including all state universities. Many out-of-state colleges/universities also accept it. This means you'll start as a junior and will have completed gen-ed requirements.

The Associate in Arts is ideal for students pursuing a Bachelor of Arts, which includes areas such as communication, psychology, social work, education, criminal justice, history and English. If you plan to enter a more science or technology-based area, please check before enrollment to make sure this is the right program for you.

This program includes all the required courses to earn the General Education Core Curriculum stamp in Illinois.

Students who have never taken a college class or have some previous college credits are encouraged to apply.

There are some testing requirements to be ready for college. The South Extension Center advisor will review testing requirements with each applicant.

The learning cohort is limited to 20 students.

Apply now at fastpath.kcc.edu

Convenient location

Fast Path program is offered at KCC's Miner South Extension Center in Watseka.

A predictable schedule you can actually plan your life around

Fast Path classes will be on the same days of the week throughout the program. So whether it's work or family obligations, or just to plan ahead, you'll have a schedule you can depend on.

A fully mapped program guaranteed to transfer

Fast Path takes the guesswork out of creating a schedule that will work. Your classes will be mapped out so you'll know what classes you'll take when & where.

A blended curriculum designed for today's learner

Research shows that students learn best in programs that combine both traditional and online instruction. With that in mind, Fast Path was carefully designed to maximize your engagement and success through a combination of face-to-face and online activities and materials.

A concentrated learning experience

Typically, Fast Path schedules just two classes at a time every eight weeks. This format allows you to focus on the material at a pace that maximizes learning while eliminating distractions and busy work.

A support system you can rely on

Fast Path is a cohort program, and you and your classmates will experience everything together as a team. Being part of a learning community means you'll always have classmates to turn to for help! In addition, you will have a faculty member to be a mentor, guide, and coach throughout the program.

Sample courses

Fast Path includes required general education courses such as: Communication, Science, Social Science, Math and Humanities. See the full schedule at **fastpath.kcc.edu**.

Consult us if you have dual credit or previous credit.

Can I use my own laptop?

A new laptop computer is provided and will be loaded with the tools you need.

What if I don't test into English I?

Multiple measures will be used to determine your readiness for English I. Talk with your advisor about options.

What if I don't test into Statistics?

If you don't test where you need to be you can practice and retest up to five times using KCC's math testing system, ALEKS.
